Augusta

2. Castles

Why were castles built? During the Middle Ages much of Europe was divided up between lords and princes. They would rule the local land and all the people who lived there. In order to defend themselves, they built their homes as large castles in the center of the land they ruled. They could defend from attacks as well as prepare to launch attacks of their own from their castles.

The Keep was a large tower and the last place of defense.

The Teutonic Knights built Malbork Castle.
