

# SCIENTISTS COLLECT DATA

## PALEONTOLOGIST \_\_\_\_\_

Write the name of the type of fossil in the thin, rectangular box. Then, tally how many of each you found on your expedition in the larger box!

### TALLY

### CHALLENGE!

Fossils of the actual animal or animal parts.	Fossils that tell us about the movement and behavior of an organism.	Fossils that are prints. Mud hardens around the organism and creates a..	Fossils that are formed when a print is filled in with minerals.	Fossils created when a small creature gets caught in tree sap.
